Friday, July 20, Day 1

http://cme.uthscsa.edu/cardiorenalconnections2018.asp

Dr. Prasad and Dr. Bansal invite you to lectures packed with state of the art information in cardireno-metabolic arena.

 ✓ Obtain CME/CNE and ethics credit
 ✓ Attend the largest Cardio Renal Meeting in USA
 ✓ Learn from and interact with national leaders in the field
 ✓ Enjoy the hospitality of San Antonio, TX

Session: The Intersection of Cardiac Renal and Metabolic Disease
8:00-8:25 Epidemic of Diabetes in South Texas: A Sign of things to come for the United States?
Sue Fisher-Hoch, MD
8:25-8:50 State of the Art: Diabetes, Proteinuria and Heart Disease
Kumar Sharma, MD, Chief of Nephrology, UTHSA
9:15-9:40 The "Obesity Paradox" in Heart and Kidney Disease
Srinivasan Beddhu, MD, Univ. of Utah
9:40-10:00 Q&A and panel discussion
10:00-10:15 BREAK
10:15-10:35 Vascular Disease and Amputations in the CKD: Pathophysiology & Epidemiology
Anand Prasad, MD
10:35-10:50 Foot Care in the CKD Patient
Michael Langlois, DPM, UTHSA
11:00-11:25 State of the Art: Vascular Interventions in CKD patients
Fadi Saab, MD
11:25-11:50 Dyslipidemia – Why Statins Don’t Work in CKD
Srinivasan Beddhu, MD
11:50-12:10 Q&A and panel discussion
12:10-1:00 LUNCH

Friday, July 20, Dinner Ethics Session

Session: The Kidney and Cardiovascular Procedures
1:00-1:25 National Trends in Acute Kidney Injury from Cardiovascular Procedures
Jeremiah Brown, PhD, MS
1:25-1:50 Acute Kidney Injury Following Therapy for Peripheral Arterial Disease
Anand Prasad, MD
1:50-2:10 Nihilist’s Viewpoint: Does Contrast Induced AKI Really Exist?
Shweta Bansal, MD
2:10-2:25 Prevention of AKI Using Volume Expansion: A Cath Lab Nurse’s Perspective
Samantha Dunn, RN
2:25-2:50 Prediction, Prevention, and Outcomes of AKI in the Cath Lab
Hitinder Gurm, MBBS
2:50-3:10 Q&A and panel discussion
3:10-3:30 BREAK

Session: Clinical Challenges in Cardiology and Nephrology, Part I
8:00-8:25 Newer High Blood Pressure Guidelines
Srinivasan Beddhu, MD
8:25-8:40 How Do You Actually Take a Blood Pressure? A Nursing Perspective
Catherine Shah, RN
8:40-9:05 Why is Volume Overload Bad?
Shweta Bansal, MD
9:05-9:30 Dietary Salt and Potassium: What Should We Tell Our Patients?
Sue Cunningham, PhD, RDLD, CDE, FAND, Christiane Meireles, RD
9:30-9:50 Q&A and panel discussion
9:50-10:10 BREAK
10:10-10:35 State of the Art Talk: Cardiorenal Syndromes in 2018
Inder Anand, MD, FRCP, D Phil (Oxon.)
10:35-11:00 Increased Serum Creatinine during Acute Heart Failure Therapy: Is It Always Bad?
Steven Coca, DO, MS
11:00-11:25 How Do I Assess Excess Volume Status: From JVP to Plasma Volume Measurement Tools
Shweta Bansal, MD
11:25-11:45 Q&A and panel discussion
11:45-12:45 LUNCH

Saturday, July 21, Day 2

Session: Clinical Challenges in Cardiology and Nephrology, Part II
12:45-2:00 Ask the Experts: 4 Cases: Procedure, HF, HTN, Metabolic Procedure
Brian Reeves, Kumar Sharma, Steve Bailey
2:00-2:25 Sudden Cardiac Death in Kidney Patients
Jayashree Pillarsetti, MD, MSc
2:25-2:45 Panel
2:45-3:05 BREAK
3:05-3:30 Heart Failure with a Preserved EF% in the CKD Patient
William Herrich, MD, President-UTHSA
3:30-3:55 Acute Kidney Injury after PCI vs CABG: Which Strategy Is Preferred in the CKD Patient?
Anand Prasad, MD
3:55-4:20 ACS in CKD: Balancing Bleeding Risk and Ischemic Events
Usman Baber, MD
4:20-4:45 Cerebrovascular Disease and Ischemic Stroke in CKD Patients
Usman Baber, MD
4:45-5:10 Cardiac Risk Stratification in Pre-renal Transplant Patients: An Overview
Suvera Bhayana, MD, Transplant Nephrologist, UTHSA
5:10-5:30 Q&A and panel discussion
