Iuliu Hatieganu University of Medicine and Pharmacy
Cluj-Napoca, Romania

Surgical reconstruction of diabetic foot wounds requires a collaborative approach involving the podiatric surgeon, orthopedic surgeon, vascular surgeon, and rehabilitation team. This symposium is designed to meet the unique educational needs of podiatric surgeons, orthopedic surgeons, plastic surgeons, general surgeons, fellows, residents, and other health care professionals interested in the multidisciplinary management of diabetic lower extremity wounds.

LEARNING OBJECTIVES
• Identify indications and contraindications for surgical wound care in lower extremities
• Describe and interpret advanced imaging for diabetic foot and ankle pathology
• Identify the latest models for medical and surgical treatment of diabetic foot ulcers
• Identify proper diagnosis and surgical treatment for complex diabetic foot and ankle trauma
• Describe the history and latest advancements in foot and ankle trauma for diabetic surgical reconstruction
• Interpret options available for plants surgical reconstruction of diabetic lower extremity defects and apply various techniques in hands on cadaveric workshops
• Effectively apply techniques for external fixation for diabetic lower extremity wounds and utilize and on site instructional videos in hands on cadaveric workshops.

REGISTRATION INFORMATION
The symposium registration fees include, lectures, course materials, entrance to all symposium events, lunch and refreshment breaks, and a Friday evening reception. Participants will have access to a free copy of the course content in both PDF and PDF-A formats. A limited number of books will be available, therefore early registration is encouraged. In order to qualify, please register online at IIEF.UTHealth.org. If you must cancel, you shall receive a full refund of the course registration fee by November 19, 2017. The IIEF Committee reserves the right to make changes to the course content or cancel the course a few weeks prior to the program. Should circumstances make it necessary, this course will be rescheduled in an alternative location.

CONTINUING EDUCATION CREDIT
Financial Disclosure: An Accreditation Council for Continuing Medical Education (ACCME) accredited provider, UT Health San Antonio Long School of Medicine must ensure that all CM/EE activities are independent of the control of commercial interests. All speakers and planning committee members for this IIEF program are required to disclose potential financial conflicts of interest (pursuant to the activity’s all “relevant financial relationship” as financial relationships with commercial interest unless it is less than 5% ownership of stock. Necessary financial relationships with commercial interests that could inappropriately influence a speaker’s or planner’s objectivity are prohibited. This symposium is designed to meet the unique educational needs of podiatric surgeons, orthopedic surgeons, plastic surgeons, general surgeons, fellows, residents, and other health care professionals interested in the multidisciplinary management of diabetic lower extremity wounds.
