COURSE DESCRIPTION
This symposium will focus on contemporary state-of-the-art management of heart rhythm disorders and cardiac devices with the latest updates in cardiac electrophysiology as well as reviewing all basic and advanced concepts in electrophysiology. It will serve as a comprehensive and concise electrophysiology, learning platform for Electrophysiologists, Cardiologists, Primary Care Physicians, Nurses, EP Lab Technicians, Allied Health Professionals, Fellows, Residents, and Medical Students.

TARGET AUDIENCE
This activity is designed to meet the educational needs of Electrophysiologists, Cardiologists, Primary Care Physicians, EP Lab Technicians, Allied Health Professionals, Fellows, Residents, and Medical Students.

LEARNING OBJECTIVES
1. Describe the pathophysiology of Atrial fibrillation and ventricular tachycardia, mortality benefits with ablation and the recent techniques and outcomes of AF and VT ablation.
2. Describe eligibility and outcomes for left atrial appendage occlusion devices.
3. Describe sudden cardiac death in relation to genetic channelopathies.
4. Describe the recent advances in pacing relating to His bundle, leadless pacing and biventricular pacing.

FELLOWS POSTER COMPETITION & JEOPARDY
Fellow Poster Competition
Residents and Fellows can submit abstracts related to heart rhythm disorders. Abstracts already presented at national conferences can also be submitted. Abstracts will be judged and those with the highest scores will be awarded. Submit your abstract at heartrhythmfocus.org.

Fellow Jeopardy
Cardiology and EP fellows can participate in this jeopardy. Team consists of 3 participants from each institution. The final team to win the jeopardy will be awarded.

CONTINUING MEDICAL EDUCATION
The Long School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Long School of Medicine designates this live activity up to a maximum of 8 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MAINTENANCE OF CERTIFICATION (MOC)
Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) Program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. The Long School of Medicine Office of Continuing Medical Education will submit participant completion information to ABIM for the purpose of granting ABIM MOC credit.

*CEIs being applied for.

Course Directors

Javarees Pillarsetti, MD
Assistant Professor
Cardio Electrophysiologist
Long School of Medicine
UT Health San Antonio

Manoj Panday, MD
Associate Professor of Medicine
Assistant Dean of Students
Cardio Electrophysiologist
Long School of Medicine
UT Health San Antonio

Aurora Badin, MD
Assistant Professor
Cardio Electrophysiologist
Long School of Medicine
UT Health San Antonio

Cynthia Saunders
AG-AACNP, ACCNS-AG
Professional Nurse Practitioner
Department of Medicine
Director of Continuing Education
UT Health San Antonio

Faculty

Ahmed Alomarzi, MD
Clinical Assistant Professor
Cardiovascular Medicine
University of Texas Southwestern Medical Center

Booletzki, MD
