

# ADVANCING THE SCIENCE OF CANCER IN LATINOS

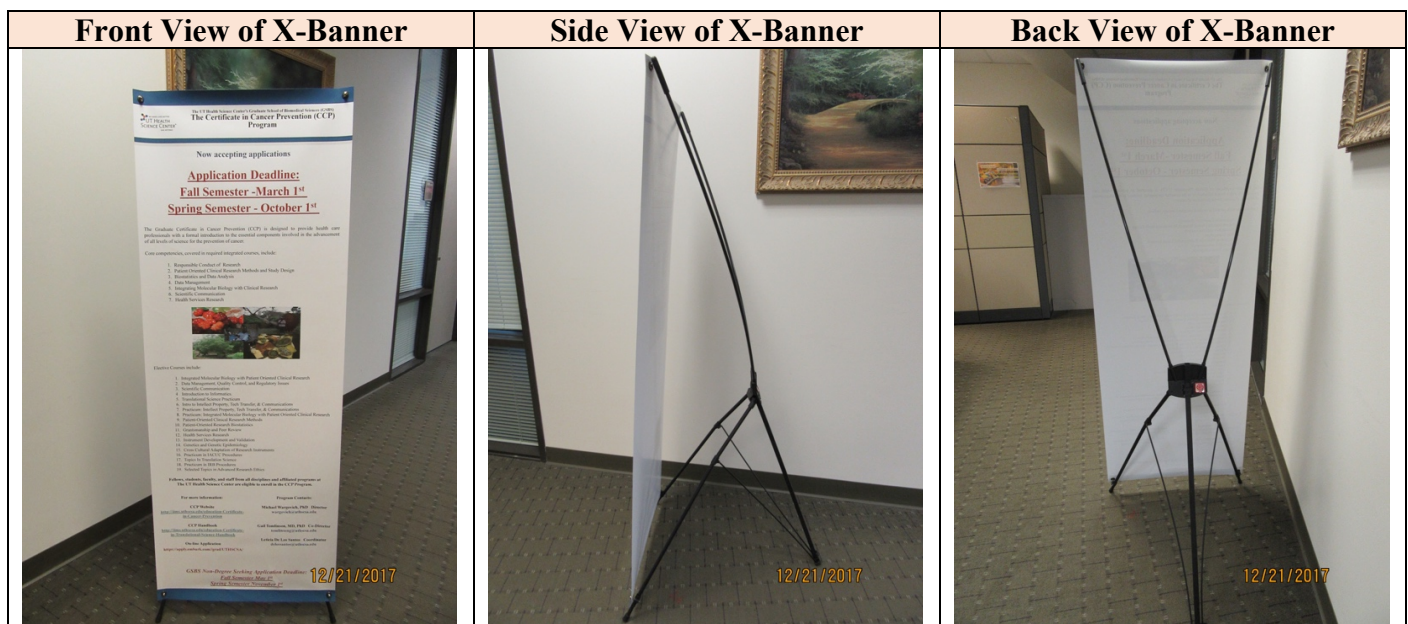

## POSTER INFORMATION

February 21-23, 2018 | Marriott Plaza San Antonio

[www.LatinoCancer.com](http://www.LatinoCancer.com)

### PREPARING YOUR POSTER

- Posters must be 24 X 63 to fit on vertical x-banners. X-banners will be provided. Please use the attached PowerPoint poster template to prepare your poster. This template is the exact size that your poster needs to be. You may change the layout of sections, fonts, colors, and add your institution's logo, but your poster must conform to this size.
- Posters must have grommets that are ½ an inch in from edges on all four corners of the poster. Please see pictures below.
- The top of the poster should feature the title of the project/program, the principal investigator, and any other contributors.
- The content of the poster should be divided into appropriate sections (i.e., background/introduction, aims, methods, data/results, conclusions, significance/impact, etc.).
- Include illustrations if possible – figures, tables, color photographs, charts.
- The material should be well labeled and legible from a distance of 2 yards.
- Lettering should be bold.
- Avoid use of fancy fonts.
- Simple serif fonts (i.e., Times New Roman) are easier to read than sans (without) serif fonts (i.e. Geneva).
- All posters must be identified with the primary program affiliation of the presenter and noted which grant and core usage the research was supported by.
- Posters in any other format will not be displayed due to the limited availability of x-banners

## PRINTING YOUR POSTER
