# Changing Your Perspective

Inspired by the increasing clinical demands of today's healthcare environment, the touch-based TE X Ultrasound System adopts advanced technologies and integrates them into an innovative, accessible, and patient-centered solution. The technology-rich TE X Ultrasound System gives clinicians access to market-leading artificial intelligence (AI)-powered Smart Tools, an ergonomically designed system, and proprietary software-based beamformer Zone Sonography Technology+ (ZST+). By incorporating these elements, the TE X provides clinicians access to advanced diagnostic data, the ability to adapt to the various clinical scenarios in Point of Care, and best-in-class imaging to help them provide a higher standard of care.

## Your Experience Reinvented

23.8" HD rotatable, full touchscreen display supports both landscape and portrait orientation to meet the needs of various clinical scenarios

Sealed interface for fluid resistance and ease of disinfection

Wireless voice control (iVoice Plus) for hands-free operation

Four active transducer connectors enable users to seamlessly switch between different exam types to increase productivity

Flexible storage design: wireless transducer charger, lockable storage basket, or disinfectant wipe holder

A wireless charging station eliminates cables and provides a home base to charge the system

Retractable cord to reduce tripping hazards and contamination concerns

# Innovation Redefined

The TE X Ultrasound System offers a comprehensive suite of software features, including automation, advanced AI, and educational tools to streamline clinical workflows and enhance exam consistency.

## AutoEF Plus

Real-time Ejection Fraction Assessment

## Smart TTQA

Automated Tissue Tracking Quantitative Analysis

## Auto DFR

Automated Diastolic Function Ratio Assessment

## Smart Echovue

Educational Tool for Automated Cardiac Plane Recognition and Guidance

## Smart Fluid Management

Automated VTI, IVC, and B-Line Analysis

## Smart Nerve

Educational Tool for Auto Recognition and Visualization of Nerve Bundles

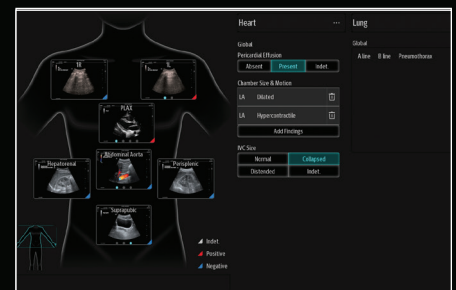

## Smart FHR

Automated Fetal HR Assessment in Real-time

## iScanHelper

On-board educational tool providing guidance for a variety of clinical exams and procedures

## X-Pilot

Guided Application-oriented Workflow for Shock and Trauma

# Versatility Reimagined

Today's healthcare environments require solutions that can adapt to ever-changing clinical scenarios. The TE X includes an industry-first wireless transducer that connects to the TE X System or used independently with a mobile device.

## Reliable Partner

### Living Technology

Living Technology™ is a continually evolving software-based approach to providing our customers with easily upgradeable enhancements made possible by our core imaging technologies. These upgrades secure product investment protection by ensuring that Mindray Ultrasound Systems remain at the cutting-edge of imaging performance throughout their entire life cycle.

### Standard warranty\* includes:

#### Five years of coverage for:

- Main system and parts, and technical phone support Monday-Friday, 8:30 AM–8:30 PM ET (excluding U.S. holidays)
- Standard transducers (normal wear and failure)
- Software performance updates with Living Technology

#### One year of coverage for:

- Specialty transducers including, but not limited to, TEE and 4D transducers

\* Standard five (5) year warranty is available for systems purchased directly from Mindray North America. Warranties for systems purchased from Mindray authorized agents can vary.
