TOPICS

Ophthalmic Cornea and Research

DESCRIPTION

The 32nd Annual Alamo City Ophthalmology Clinical Conference will focus on Ophthalmic Cornea and Research topics and consists of featured keynote lectures and a series of oral abstract presentations based on original resident research – including clinical and basic science projects. Topics include public health issues, current therapeutic and surgical management of ocular disorders, and novel approaches to diagnostic treatment challenges. After each abstract presentation, expert panelists discuss salient points.

LEARNING OBJECTIVES

1. Identify current areas of research in the various disciplines of ophthalmology.
2. Update therapeutic strategies in selected ocular disorders.
3. Review and critically analyze the literature regarding specific ophthalmic disorders.
4. Recognize and effectively manage ethical and medico-legal challenges in ophthalmology practice.
